Coronavirus Super Core resources

Providing AAC users with access to the language they need to talk about lots of different things is really important.

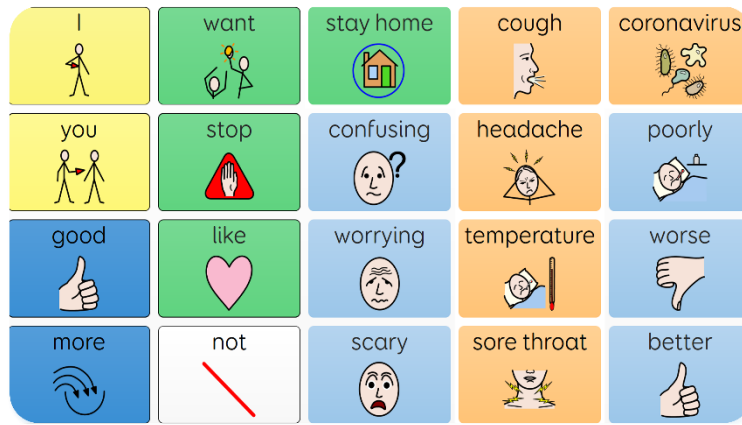

Given the recent outbreak of Coronavirus, here are some [Super Core](#) grids to support communication around the issue. These resources are included in Grid AAC software for free.

[Download printable versions](#)

Coronavirus learning grid

Here's a Super Core learning grid with 20 cells, with some words that may be useful for talking about Coronavirus. It has the same core language as the rest of the Super Core learning grids to be consistent. Add it to your Grid Explorer by searching for **Super Core Learning Coronavirus** in Online Grids.

If you'd like to add some of your own words, you can learn how to create and edit your own learning grid [in this webinar](#).

Super Core topic grids

These Coronavirus topic grids can be used as standalone resources or added into your Super Core 30 and 50 grid sets. Both are built with the same styling as the rest of Super Core and wherever possible the language is consistent. There's also space for you to personalise them with your own words.

Super Core 30 Coronavirus

Super Core 50 Coronavirus

Find them in Online Grids. [Here's a video](#) to show you how to add a topic grid into an existing Super Core grid set.

Try Grid for free

Explore our resources for communicating with symbols and text for free, with a trial of Grid AAC software. Available on [Windows](#) and [iPad](#).
