

Size

An introduction to

big and **small**.

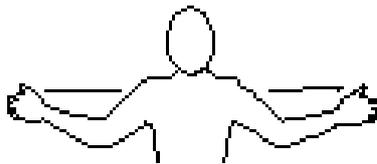

Try this visual and key signs:

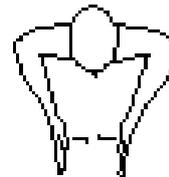

I

see

big

small

Starter – Listen and watch

The Big and Small song

<https://www.youtube.com/watch?v=XAMtgyiUhlo>

TEACCH

Grab a shoebox and make holes that vary in size.

Have your child put things in.

Compare shoe sizes

Set up a big and small bucket.

Ask your child to look for different pair of shoes

to sort them by size.

Sorting tray

Give your child a baking tray to fill big circles with small objects.

Learn online

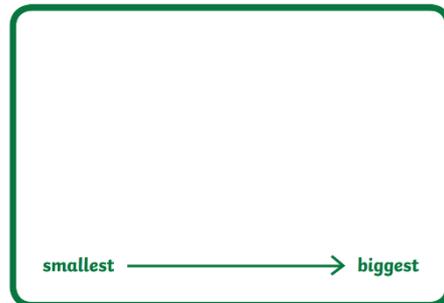

Help your child to copy the pattern.

Place big and small cards in the right spot.

Size ordering

Adults to create a base board as shown in
the example.

Provide your child with straws, cubes or different items that vary in size.

Model your child to order objects by size.

Let's play!

Give your child instructions.

"Hide behind something that is very big"

"Sit on something that is very small"

Home Education – Maths Size

Please, find below and **aided language display** board to increase language output during activities.

Ask or model your child to point at the symbols to make one, two, three-part sentences.
